Dear Hiring Manager,

I am writing to express my interest in the Community Liaison Officer position within your forest landscape restoration projects in the Western-North Region. With a background in Land Economy, a Master's degree in Project Management, and practical experience at the Lands Commission and YMCA Ghana, I bring a solid understanding of Ghana's land tenure systems, stakeholder coordination, and community engagement processes.

During my service at the Lands Commission, I supported land documentation and administrative processes and gained direct exposure to customary and statutory land systems. This experience strengthened my appreciation for responsible land access, proper documentation, and the importance of respectful engagement with landowners, traditional authorities, and local stakeholders.

Through my leadership role with YMCA Ghana, I have also contributed to community-based initiatives and youth engagement programs, including climate-related advocacy. These experiences required effective communication, coordination, and reporting—skills that are essential for facilitating community entry, supporting consultations, and documenting grievances in line with organizational procedures.

I am particularly drawn to your organization's mission to combine ecological restoration with inclusive livelihood development. I am willing to travel frequently, work within rural communities, and contribute actively to building trust-based relationships between project teams and host communities.

I would welcome the opportunity to support your restoration efforts and ensure strong community engagement across project sites.

Thank you for your consideration.

Yours sincerely,  
Gerhard Ofosu, PMP
